AFEEZ ONABEKUN

Lagos, Nigeria | +234 7012367630 | afeez.onabekun@gmail.com | Linkedin.com/in/afeezonabekun |
Portfolio: onabekun.vercel.app

PROFESSIONAL SUMMARY

I am a result-driven and detailed-orientated Data Analyst with a B.Sc. in Geology with over 3 years of technical experience in collecting, cleaning, and extracting actionable insights from complex operational datasets. Proven expertise in utilizing Python, SQL, and Power BI to monitor real-time parameters, track operational KPIs, and optimize efficiency. Combines deep geological knowledge with practical field experience in borehole drilling, lithology classification, and formation evaluation.

PROFESSIONAL EXPERIENCE

Borehole Drilling Geologist & Data Analyst
SW Drilling Service Limited | **Lagos, Nigeria** | *Aug 2015 – Present*

- Supervised borehole drilling operations, ensuring strict adherence to environmental regulations and field safety protocols.
- Analyzed subsurface geological formations by logging and classifying soil and rock cutting samples to identify water/fluid-bearing zones.
- Tracked real-time drilling metrics including depth progression and formation changes to draft comprehensive daily wellsite geological reports.
- Engineered data capture processes to map local groundwater tables and stratigraphic data using Excel and specialized lithological logs.

Data Analyst
Webiz Innovation | **Lagos, Nigeria** | *Feb 2024 – Mar 2025*

- Spearhead the analysis of daily operational activities, identifying inefficiencies and recommending data-driven improvements, resulting in a 15% increase in operational efficiency.
- Designed and maintained interactive dashboards using Power BI, enabling stakeholders to track KPIs and make informed decisions in real-time.
- Collaborated with cross-functional teams to gather requirements and deliver tailored data solutions, improving data accessibility and usability across departments.
- Conducted data quality audits, ensuring 98% accuracy in datasets used for critical business decisions.
- Utilized advanced Excel and Power BI functionalities to analyze complex datasets, uncovering trends that informed strategic business initiatives.

Data Analysis Intern
Utiva | **Lagos, Nigeria** | *Mar 2023 – Oct 2023*

- Completed a rigorous data analysis training program, mastering the entire data lifecycle and gaining hands-on experience with tools like Python, PostgreSQL, and Power BI.
- Developed a fraud detection model using analytical methods and problem-solving techniques, reducing potential fraud risks by 20% in simulated scenarios.
- Executed a capstone project involving the analysis of large datasets, delivering actionable insights that improved decision-making processes.
- Enhanced interpersonal and communication skills through collaborative projects, effectively presenting findings to stakeholders and team members.

EDUCATION

University of Jos, Nigeria
Bachelor of Science (B.Sc.) in Geology

CERTIFICATIONS

Data Analytics, Science, and Blockchain Technology – *Utiva | Nov 2023*
Career Essentials in Data Analysis – *Microsoft and LinkedIn | Nov 2023*
Data Analytics – *LinkedIn Learning | Nov 2023*
Soft Skills Training – *Jobberman | Aug 2023*
Well Operation Crew Resources Management (WOCRM) – *IWCF | Sep 2026*

CORE COMPETENCIES

Geological Services: Lithology Identification, Formation Evaluation, Stratigraphic Analysis, Rock & Soil Classification, Mud Logging Principles.
Drilling Operations & Data: Borehole Drilling Oversight, Real-Time Drilling Parameter Tracking (ROP, WOB, Pump Pressure), Subsurface Data Logging.
Data Analytics & Modeling: Python (Pandas/NumPy), SQL (PostgreSQL), Microsoft Power BI, Tableau, Data Modeling, Statistical Analysis.
Soft Skills: Analytical Thinking, Problem Solving, Attention to Detail, Hazard Identification, High-Pressure Decision Making, Cross-Functional Collaboration.

VOLUNTEER

Deloitte Australia
Data Analytics Job Simulation on Forage - April 2025

- Completed a Deloitte job simulation involving data analysis and forensic technology
- Created a data dashboard using Tableau
- Used Excel to classify data and draw business conclusions

British Airways
Data Science Job Simulation on Forage - April 2025

- Completed a simulation focusing on how data science is a critical component of British Airways' success.
- Scraped and analyzed customer review data to uncover findings.
- Built a predictive model to understand factors that influence buying behavior.

ADDITIONAL INFORMATION

Interests: Data storytelling, machine learning, open-source contributions, and continuous learning in emerging data technologies.
